¹ Days are reckoned as beginning on the first date at sunset and ending on the second date at sunset. The scriptural New Year starts with the new moon of Abib from Jerusalem, as stated in Isaiah 2:3, "...for out of Zion will the law go forth, and the word of Yahweh from Jerusalem." The new moon can be predetermined per examples in 1 Sam., 20:5 & 18. Abib 1 is the beginning of Year 30 of the 70th Jubilee cycle, calculated from when the Israelites began the count for the first Jubilee Cycle in 1386/1385 B.C.E in the land of Kanaan. The Exodus occurred in 1439/1438 B.C.E. There are 20 years remaining until the completion of the 70th Jubilee, which occurs in the spring of 2045 C.E.
